About the Company

- Accurate Power Control is a leading Manufacturer and designer of customized power and control panels.
- Accurate Power Control was founded in 2018 with a vision to provide innovative and customized power and control solutions to various industries. Since its inception, the company has been committed to delivering high-quality products and exceptional customer service.

Our Mission and Vision

Mission

- At Accurate Power Control, our mission is to empower industries with innovative and reliable power solutions.
- We strive to deliver high-quality products that ensure efficient, safe, and sustainable power distribution and control.
- Our goal is to build long-term relationships with our customers by providing exceptional service, technical expertise, and tailored solutions that exceed their expectations.

Vision

- At Accurate Power Control, our vision is to be the leading provider of innovative and reliable power and control solutions, empowering industries to optimize their operations and achieve unparalleled efficiency.
- we have rapidly established ourselves as a trusted partner in the design and manufacture of customized power and control panels
- we strive to deliver cutting-edge technology, exceptional quality, and unwavering customer support, fostering long-term relationships with our clients and driving growth through continuous improvement and innovation.

Our Goals

Goal 1

**Enhance Product
Quality and
Reliability**

Goal 2

**Expand Product
Portfolio and
Services**

Goal 3

**Increase Market
Presence and
Customer Base**

Our Offered Services

- **Customized LT Panels :** Design and manufacture of low-tension (LT) panels for various industrial applications.

- **PCC (Power Control Center) Panels:** Design and manufacture of power control center panels for efficient power distribution and control.

- **MCC (Motor Control Center) Panels:** Design and manufacture of motor control center panels for motor control and protection.

- **PLC (Programmable Logic Controller) Based Panels:** Design and manufacture of PLC-based panels for automation and control of industrial processes.

- **Customized Control Panels:** Design and manufacture of customized control panels for specific industrial applications.

- **Design and Engineering, Installation and Maintenance,**
• **Upgradation and Retrofitting, Troubleshooting and Repair.**
